To Whom This May Concern:

It gives me great pleasure to write a letter of recommendation for Julie Schiff. Julie worked on a site plan approval from the City of Naples to build a Veteran Affairs medical suite for us. I was amazed to find that on our first plan submittal were approved. This was the first time in all my years that I have witnessed any designs or plans submitted to any city to be approved on the initial submission. Julie is always looking out what is best for her clients first. This is something that is very difficult to come by in any market. She is constantly raising the level of discussion and professionalism through her insight and hard work.

It is my firm belief that Julie is definitely one of the best architects out there on the market. I can assure you that when pursuing any project, she is the one to have in your corner.

Sincerely,
